We asked five tastemakers to share paint colors that give instant wow factor to any space.

BY KARINE MONIÉ

Stormy Sky

“I love using Benjamin Moore’s Stormy Sky 1616 because it can be dramatic, but it can also be translucent. It is beautiful with white and with metals of all finishes. I have used it on exteriors and in kitchens. This color also works well as a base to add other hues. I’ve even done 50-50 mixes starting with this shade.” — [*Windsor Smith*](#)
